

Dear Customer,

Concerning : REACH

We would like to inform you that in the capacity of manufacturer and supplier of wallpaper we are considered as a 'producer of articles'. As such, our products are not submitted to the REACH regulation and consequently the imposed registration, evaluation or authorization does not have to be complied with.

The inks, adhesives, maintenance products we are using for the manufacturing of wallpaper are considered as preparations.

Thus, according to REACH we are a 'downstream user' of preparations.

Concerning the Substances of Very High Concern, SVHC, article 33 of REACH stipulates that the manufacturers of these substances or preparations containing these substances in a concentration of more than 0.1% (w/w), has to keep us informed.

From any of the information that we received so far from our manufacturers, it appears that none of the preparations they are delivering and consequently our articles, contain Substances of Very High Concern.

However, should we receive information where it appears that our articles should contain SVHC in a concentration of more than 0.1% (w/w), we will keep you informed immediately.

Yours faithfully,

Debruyne Philippe ,

Decoprint NV  
Dommekensstraat 2
